Credentialing Guidelines Policy and Procedures

This guide serves as a reference regarding procedures and other requirements to hire faculty at Clayton State University. The information follows state and federal law, Board of Regents of the University System of Georgia regulations and policies, Southern Association of Colleges and Schools Commission on Colleges faculty credentials guidelines, and policies and guides in place by federally recognized, discipline specific accrediting bodies. Please make sure to refer to the most recent version of this guide as noted by the effective date on the title page.

Academic Deans and Department Chairs/Program Coordinators will review qualifications annually in consultation with the Academic Affairs in order to make sure that procedures are up to date concerning programs and courses offered at Clayton State and reflect changes in Board of Regents and SACSCOC guidelines and principles of accreditation.

Process for Evaluating Full-time and Adjunct Faculty Qualifications and Credentials

1. All applicants for faculty positions must submit the requirements for delineated in the job vacancy posting.
2. For faculty positions requiring academic qualifications (undergraduate transferable or graduate coursework), the applicants must also submit official academic transcripts from an accredited institution. Applicants that have degrees from outside of the United States must request a credential evaluation of their transcript. The National Association of Credential Evaluation Services (www.naces.org) lists members who may be contacted for assistance in evaluating foreign credentials.
3. For those faculty positions requiring additional or alternative qualifications (licensure, certifications, etc.), the applicant must submit the appropriate qualifying documents. All documentation must be submitted prior to consideration or interviews.
4. **The evaluation of academic transcripts should be conducted prior to the interview process. Only candidates that have the appropriate credentials can be considered for interviews and potential hiring.**
5. The application and all accompanying documentation will be used by the department or college to determine if the applicant has the proper credentials to teach in the discipline and at the level of the job vacancy. At this point, a Credentials Review Sheet should be prepared and submitted to Academic Affairs for review. (see Determining Faculty Credentials & SACSCOC Guidelines sections below)

6. Applicants that submit unofficial transcripts must submit official transcripts within one month of their start date. Failure to provide the University with official academic transcripts will result in termination of employment. For faculty positions requiring additional qualifications, copies of the appropriate documents will be made and returned to the applicant.

Faculty Teaching as Part of Collaborative Agreements with USG Schools

For administrative and credentialing purposes, Clayton State University carries faculty teaching as part of collaborative agreements as unpaid, part-time adjuncts. As such, original copies of transcripts are on file at the faculty member's home institution and copies should be available upon request.

Additional Evaluation Requirements for Graduate Faculty

When hiring faculty members to teach graduate courses at the Master's level, department and program chairs are asked to complete an extra level of review to determine whether the candidate has a terminal degree in the teaching discipline or related field (see SACSCOC Guidelines 'E' below). If the candidate will be applying for graduate faculty status, the department or program chair should complete the Graduate Faculty Course/Program Verification Form (Appendix E).

Determining Faculty Credentials

The following minimum qualifications guidelines are based on Board of Regents of the University System of Georgia Policy 8.3.1 (and its subsections) and the SACSCOC guidelines for compliance with Standard 6.2.a. The guidelines apply to all instructors of record at Clayton State University.

Policy 8.3.1 Faculty Employment of the Board of Regents of the University System of Georgia specifies that "each institution shall publish comprehensive, clearly stated written policies and procedures for the recruitment and appointment of faculty members. These policies and procedures shall conform to the guidelines promulgated by the USG chief academic officer. Further, as per 8.3.1.2 Minimum Qualifications for Employment, the policy states "minimum employment qualifications for all institutions and all academic ranks within these institutions shall be:

1. Consistent with the Southern Association of Colleges and Schools' requirements for institutional accreditation;
2. Evidence of ability as a teacher;
3. Evidence of ability and activity as a scholar in all other aspects of duties assigned;

4. Successful experience (this must necessarily be waived in the case of those just entering the academic profession who meet all other requirements); and,
5. Desirable personal qualities judged on the basis of personal interview, complete biographical data, and recommendations."

SACSCOC Guidelines

The Southern Association of College and Schools Commission on Colleges requires institutions to justify and document qualifications of faculty as part of its accreditation process. Specifically, to receive and maintain accreditation institutions must demonstrate compliance with Standard 6.2.a, which states:

"The institution employs competent faculty members qualified to accomplish the mission and goals of the institution. When determining acceptable qualifications of its faculty, an institution gives primary consideration to the highest earned degree in the discipline. The institution also considers competence, effectiveness, and capacity, including, as appropriate, undergraduate and graduate degrees, related work experiences in the field, professional licensure and certifications, honors and awards, continuous documented excellence in teaching, or other demonstrated competencies and achievements that contribute to effective teaching and student learning outcomes. For all cases, the institution is responsible for justifying and documenting the qualifications of its faculty. "

Additionally, SACSCOC provides the following credentials guidelines for each level/type of course taught:

- A. General Education Courses: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).
- B. Associate Degree Courses (transferable): doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).
- C. Associate Degree (non-transferable): bachelor's degree in the teaching discipline, or associate's degree and demonstrated competencies in the teaching discipline.
- D. Baccalaureate Courses: doctorate or master's degree in the teaching discipline or master's degree with a concentration in the teaching discipline (minimum of 18 graduate semester hours in the teaching discipline).
- E. Graduate and Post-Baccalaureate Courses: earned doctorate or terminal degree in the teaching discipline or a related discipline.

Graduate teaching assistants should have a master's in the teaching discipline or 18 graduate semester hours in the teaching discipline, direct supervision by a faculty member experienced in the teaching discipline, regular in-service training, and planned and periodic evaluations.

To remain in compliance with SACSCOC standards, each department chair, program coordinator, or dean must make a clear and compelling case to support a faculty hire using the Credentials Review Sheet (see Appendix D). Appropriate supporting documentation must also be provided as evidence where necessary. Appendices A & B list the CIP Code Crosswalks for Credentialing Requirements for Undergraduate Courses (non-transferable & transferable) by discipline/program. Graduate courses are not listed individually, but instead, terminal degrees by program/discipline are listed in Appendix C.
