

Connecting Program Outcomes and Existing Evidence Worksheet

Course Name and Number

Faculty Contributors

List the program outcomes that are addressed by this course and identify the specific student work in the course that can be used to document evidence of achievement for each relevant outcome. Student work may be collected through systematic sampling, i.e. the evidence need not be collected from every student, or at every offering of the course.

Program Outcomes	Student Work (e.g. homework, answers to particular exam questions, assignments, presentations, student feedback)
