

Scholarship in Wellness cohort: Students selected for these scholarships will be pursuing careers in areas related to health, health administration & wellness. This cohort will work with faculty, staff, and partnering organizations to create wellness assessments to better understand the health needs of our surrounding communities. The cohort will also engage in community outreach along with faculty to educate and support citizens on issues of morbidity as well as health disparities as evidenced most recently during the COVID-19. **For more information contact Kendolyn Smith, Kendolynsmith@clayton.edu**
